

WireFree™
100% wireless
motors for interior window coverings.

Get your creations moving...

...it will change everything!

WireFree™ Motors

With Somfy, take control of your interior window coverings.

With Somfy's independent WireFree™ motors, you can adjust your interior window coverings at the simple press of a button on your remote control.

No need for electrical connections and no cords to pull.

Now, you can get the most out of your window covering investment. Things will be more simple and convenient.

ROLLER BLINDS

PLEATED/CELLULAR BLINDS

With WireFree™ motors, bring your décor to life. That changes simply everything!

Easily power your interior window coverings.

- > It takes just **10 minutes** to install a motorised window covering, exactly the same as for a manual blind.
- > **No** wiring, no extra installation expenses.
- > **No** wires between the motor and its control unit, no damage to walls.
- > **More** functions which will change your lifestyle.

100% innovation.

- > WireFree™ drive units are based on an exclusive patent: when the motor is not running it doesn't use any energy. So its batteries will last for more than 12 months*.

WireFree™ motors can adapt to **all types** of indoor blinds.

- > Roller blinds.
- > Pleated/Cellular blinds.
- > Aluminium Venetian blinds.
- > Timber Venetian blinds.
- > Roman blinds.

ALUMINIUM VENETIAN BLINDS

TIMBER VENETIAN BLINDS

ROMAN BLINDS

*Depending on usage.

WireFree™ Motors

Add more comfort to your creations, **with no wires and no hassle!**

Somfy's know-how brings the comfort and convenience offered by motorised window coverings.

No more cords to manipulate, no need to move to get the best out of daylight and create the best of living environments.

WireFree™ sets your creativity free to dream up innovative ideas.

WIREFREE™ RANGE

APPLICATIONS

TECHNOLOGIES

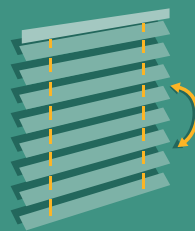

Roll Up WireFree™

To power roller blinds of up to 6 m².

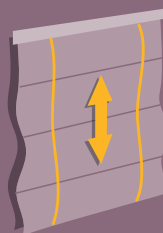

Tilt WireFree™

To adjust and tilt horizontal blind slats up to 15 kg.

Cord Lift WireFree™

To power roman blinds or pleated/cellular blinds up to 9 m².

*Available upon request only.

Installed in 10 minutes

- > With no electrical connection to worry about, a WireFree™ powered interior window covering is installed exactly like a manual blind.
- > To preserve the blind's appearance, the motor is completely invisible.

An easy choice

- For control technology:
- > Radio Technology Somfy®, the control standard for all openings in the home,
 - > or Infrared.

Optimised battery life

- > A patent deriving from Somfy research, means that batteries will last for more than 12 months*.
- > The secret: when the motor is not running it doesn't use any electricity.

With your WireFree™ powered interior window coverings, get the light ambience you want at the press of a button.

The choice of technologies

Radio Technology Somfy®

- > With a range of 20 m, even through two concrete walls, Somfy Radio Technology® controls bring your décor to life.
- > With over 4 million installations throughout the world, RTS has become the standard for secure radio technology in the building industry.
- > Somfy Radio Technology® means that installations can evolve as new controls are added.

Infrared

- > For controlling visible window coverings within a radius of 15 m.
- > Compatible with all universal infrared control units.
- > Ideal for controlling window coverings in a room in which there are several applications (e.g.: Home cinema).
- > This technology is recommended for environments that are sensitive to radio waves (e.g.: The medical sector).

Somfy Radio Technology®: functions which can change your life

More luxury, with Somfy Radio Technology® functions: personalised control solutions for interior window coverings.

Situio RTS
Room control.
